Please only order dressings that are on the formulary for your particular role.

Formeo is an online ordering platform for healthcare staff working in GP Practices and in Nursing Homes to order wound care products. Prescribing wound care products on FP10 prescription can be wasteful because the items dispensed can only be used for that one patient. Products ordered via Formeo may be obtained at a lower price than on FP10 and they become the property of the GP practice/nursing home/clinic, so a box of dressings can be used for multiple patients - reducing wastage.

The BSW Wound Care Management Group works to ensure the woundcare formulary includes a comprehensive list of clinically and cost-effective choices that have been approved for use by BSW specialist TVNs.

The formulary should cover the vast majority of prescribing. In the event that the formulary does not meet the needs of your patient, advice should be sought from the TVNs. The advice should be clearly documented on the patient records. We welcome feedback on the formulary - [bswibc.prescribing@nhs.net](mailto:bswibc.prescribing@nhs.net). We will also actively monitor FP10 prescribing for formulary feedback and training need analysis.
