* Although a TVN can prescribe any wound care product on formulary, the expectation is for other nursing teams to retain prescribing/ordering of most dressings.

Formeo is an online ordering platform for healthcare staff working in GP practices, nursing homes and BaNES community settings to order wound care products. Prescribing wound care products on FP10 prescription can be wasteful because the items dispensed can only be used for that one patient. Products offered via Formeo may be obtained at a lower price than on FP10 and they become the property of the GP practice/nursing home/clinic, so a box of dressings can be used for multiple patients - reducing wastage.

BSW works within the BSW & BNSG Wound Care Formulary Group to ensure the woundcare formulary includes a comprehensive list of clinically and cost-effective choices that have been approved for use by BSW specialist TVNs.

The formulary should cover the vast majority of prescribing. In the event that the formulary does not meet the needs of your patient, advice should be sought from the TVNs. The advice should be clearly documented on the patient records. We welcome feedback on the formulary - bswbwc.prescribing@nhs.net. We will also actively monitor FP10 prescribing for formulary feedback and training need analysis.

Document Review	Date	Details
Second edition	Jun-23	Added PICO and Mollelast to TVN formulary; removed 365 Healthcare Dressings packs as Softdrape Dressings Packs are back in stock; removed OpSite Post Op dressings as they have been deleted and added 365 Island Dressings as the alternative. General tidy up of dressings names to align to official product name and BNF/PPP listing. MCV
Third edition	Jul-23	Compression bandages (Active) removed from Nursing Home formulary.
Fourth edition	Sep-23	Additional size of PICO added, temporary addition of Cavilon Film Wipes and Cavilon Advance in packs of 20, due to stock availability issues of regular formulary options of these products. Correction of pack size of ELY842 from 20 to 4.
