** E-Direct products
* Blue Diamond products

The BSW Wound Care Management Group works to ensure the woundcare formulary includes a comprehensive list of clinically and cost-effective choices that have been approved for use by BSW specialist TVNs.

The formulary should cover the vast majority of prescribing. In the event that the formulary does not meet the needs of your patient, advice should be sought from the TVNs. The advice should be clearly documented on the patient records. We welcome feedback on the formulary - bswicb.prescribing@nhs.net. We will also actively monitor FP10 prescribing for formulary feedback and training need analysis.
