

Southwest Healthcare Science Awards 2024

Innovation Excellence Award

Recognising healthcare scientists in the Southwest of England who have demonstrated outstanding creativity and innovation in their workplace, contributing significantly to advancements in healthcare science technology, methodologies, or patient care and diagnostic services.

Patient Impact Award

Honouring healthcare scientists whose work has directly improved patient experience and/or healthcare science diagnostic delivery. This award acknowledges individuals who have made a substantial difference in enhancing the well-being of patients. This may be through their general approach to patient care through to enhancement of services to better meet patient's individual needs.

Emerging Talent Award

Celebrating healthcare scientists who have excelled in their learning. Whether this be in an undergraduate programme (PTP or Apprenticeship), scientist training programme (STP) or higher scientist training programme (HSST). This award recognises outstanding dedication and achievements within their study, highlighting the emerging healthcare science leaders of tomorrow.

Educational Leadership Award

Recognising healthcare scientists who have demonstrated exceptional leadership in education and training, contributing to the development and mentorship of the next generation of healthcare science professionals. This award highlights individuals or teams who have made a significant impact on education, knowledge dissemination, and skill enhancement within the healthcare science field.

Community and Outreach Award

Acknowledging a healthcare scientist or healthcare science teams who actively engaged in community-based initiatives to promote healthcare science awareness in the Southwest of England. This award recognizes individuals or teams who have demonstrated a commitment to public engagement and community outreach programmes raising the profile of healthcare science in their locality or across the region.

Lifetime Achievement in Healthcare Science Award

Honouring a seasoned healthcare scientist in the Southwest of England who has made enduring contributions to the field throughout their career. This award recognises a lifetime of excellence, leadership, and significant impact on healthcare science services, practice, and the broader healthcare science community.
